Supplement of

Use of field and laboratory methods for estimating unsaturated hydraulic properties under different land uses

S. Siltecho et al.

Correspondence to: C. Hammecker (claude.hammecker@ird.fr)

model	K_s
exponential	0.16
Brooks and Corey	0.11
Van Genuchten Burdine	0.29
Van Genuchten Mualem	0.5

For given experimental values, the fitted saturated hydraulic conductivity with the different models show important variability.
