A factor of  $Q_j$  was inadvertently omitted from Eqs. (56) and (57). The correct equations are

$$\text{cov}^*(X_k, X_\ell)_{(k\ell)} = \frac{\sum_{j \in (k\ell)} Q_j}{\left(\sum_{j \in (k\ell)} Q_j\right)^2 - \sum_{j \in (k\ell)} Q_j^2}$$
$$\sum_{j \in (k\ell)} Q_j (x_{jk} - \bar{x}_{k(k\ell)}^*) (x_{j\ell} - \bar{x}_{\ell(k\ell)}^*) \quad (56)$$

and

$$\text{cov}^*(X_k, Y)_{(ky)} = \frac{\sum_{j \in (ky)} Q_j}{\left(\sum_{j \in (ky)} Q_j\right)^2 - \sum_{j \in (ky)} Q_j^2}$$
$$\sum_{j \in (ky)} Q_j (x_{jk} - \bar{x}_{k(ky)}^*) (y_j - \bar{y}_{(ky)}^*). \quad (57)$$

The calculations used in the paper are correct. The error is only in the presentation of the equations. The results and their interpretation are not affected.
