The authors regret that the published version of the above article contained an error in the acknowledgements and financial support section. The correct funding statements are as follows.

Acknowledgements. This work was supported by the Korea Environment Industry and Technology Institute (KEITI) through the Aquatic Ecosystem Conservation Research Program, funded by the Korea Ministry of Environment (MOE) (2020003050001). The authors sincerely thank the Lao Department of Agricultural Land Management (DALaM) for its support, including granting the permission for field access, and the M-TROPICS Critical Zone Observatory (<https://mtropics.obs-mip.fr>, last access: 16 March 2022), which belongs to the French Research Infrastructure OZCAR (<http://www.ozcar-ri.org/>, last access: 16 March 2022), for data access. The authors also thank Campus France (PHC STAR 41510WH) for their financial support.

Financial support. This work was supported by the KEITI through the Aquatic Ecosystem Conservation Research Program, funded by the MOE (2020003050001).

The authors would like to apologize for any inconvenience.
