

Biological related  
   Factors  
  $\rightarrow P < 0.05$ , the wider the line, the greater the effect  
    $P > 0.05$ 
  
  Non-biological  
   Processes  
 T: Temperature  
 RH: Relative humidity  
 P: Precipitation

LMWL: Local Meteoric Water Line  
 LWL: Leaf Water Line  
 $\theta$ : Intersected angle between two lines

$\theta$ : Intersected angle between two lines
