Received and published: 6 June 2013

The authors apologize for not mentioning in the paper that Figure 5 was taken with permission from Sivapalan et al. (2012).

The caption for Figure 5 should read as follows:

Figure 5: Schematic of the evolution of the spatial patterns of irrigation (shaded area) in the Murrumbidgee. In the early 20th century irrigation moved upstream. Recently, the

C2315

government has started buying water rights from farmers to protect the environment. Panel 3 is a projection based on cutting back irrigation upstream. Reproduced from Sivapalan et al. (2012).
