

Interactive comment on “Darwinian hydrology: can the methodology Charles Darwin pioneered help hydrologic science?” by C. Harman and P. A. Troch

V. Baker (Referee)

baker@email.arizona.edu

Received and published: 21 July 2013

The attached philosophical comments are to be considered at the discretion of the authors. I am not requiring that any changes be made, though I will be interested to see if some are.

Please also note the supplement to this comment:
