Received and published: 24 July 2013

Dear authors,

the two reviewers gave a basically positive assessment of your manuscript but they also highlighted a number of critical issues which need to be addressed in detail before the manuscript can be considered for publication. I agree with this point of view. I would thus politely encourage you to give detailed replies to the reviewers' comments. Please note that a revised version of the manuscript should NOT be provided at this point. After your replies to the reviewer comments are received, a final editor decision

will be posted. Only then, a revised version should be uploaded.

looking forward to your replies!

Best regards,

Markus Hrachowitz
