

Interactive comment on “Indigenous vegetation burning practices and their impact on the climate of the northern Australian monsoon region” by K.-H. Wyrwoll et al.

A. Kleidon (Editor)

akleidon@bgc-jena.mpg.de

Received and published: 17 October 2013

There must have been some misunderstanding with regards to the submission as it contains material that is mostly already published, and the authors want to withdraw this manuscript. Since this is technically not possible, I will reject the manuscript instead. It is still a very nice manuscript on a relevant topic even though it cannot be published as a HESS research article.
