

Interactive comment on “Bias correction can modify climate model-simulated precipitation changes without adverse affect on the ensemble mean” by E. P. Maurer and D. W. Pierce

H.L. Cloke (Editor)

h.l.cloke@reading.ac.uk

Received and published: 9 December 2013

The Authors have carefully gone through the comments from the 4 reviews and discuss in detail how they would address these in a revised manuscript in a satisfactory way. I look forward to reading the revised manuscript containing these changes.
