

Interactive comment on “Intensively exploited Mediterranean aquifers: resilience and proximity to critical points of seawater intrusion” by K. Mazi et al.

K. Mazi et al.

kmazi@noa.gr

Received and published: 27 February 2014

We would like to thank the Referee for the thorough review, insightful suggestions and constructive critique. The Referee recommends minor revision, advises to look at four specific publications on related topics and has made numerous technical comments on the manuscript and its supplemental material. Please find our response attached.

Please also note the supplement to this comment:
