Interactive comment on "A strategy for "constraint-based" parameter specification for environmental models" by S. Gharari et al.

S. Gharari et al.

shervangharari@yahoo.com

Received and published: 3 March 2014

I largely agree with the 1st reviewer, and call for substantial effort to make this manuscript stand-alone from its companion paper, hess-2013-519.

We would like to thank the anonymous reviewer 1. We try to enrich the technical note by adding a synthetic and a hydrologically relevant case study and elaborate clearly the intention of our work related to the proposed search algorithm.
