

Interactive comment on “Hydrological model parameter dimensionality is a weak measure of prediction uncertainty” by S. Pande et al.

S. Pande et al.

s.pande@tudelft.nl

Received and published: 28 April 2014

We are grateful to András Bardossy for his patience and in-depth assessment of our manuscript. We formulated our previous response with great care. We take this opportunity to clarify our response with even greater precision based on this commentary.

Please also note the supplement to this comment:
