

***Interactive comment on* “Local nutrient regimes determine site-specific environmental triggers of cyanobacterial and microcystin variability in urban lakes” by S. C. Sinang et al.**

**Anonymous Referee #1**

Received and published: 11 November 2014

I wish to thank the authors for the fruitful and open exchange of ideas: I do not have any further comment to post. Thanks also to HESS: I agree with Prof. Ghadouani that this interactive discussion tool is an excellent way to establish a direct and very constructive contact between the authors and the reviewer.
