

***Interactive comment on “Using groundwater age to understand sources and dynamics of nutrient contamination through the catchment into Lake Rotorua, New Zealand” by U. Morgenstern et al.***

**U. Morgenstern et al.**

u.morgenstern@gns.cri.nz

Received and published: 13 December 2014

Please find attached our authors response to the referee comments.

For easy tracking of the reviewers comments and our responses, and the revised parts in the manuscript, we have used colour codes. Therefore we have not copied as plain text into this box.

The referees comments are in blue font, our response in black font, and modified parts in the manuscript are with blue highlight.

The attached revised manuscript contains the revised figure 7d.

C5658

Please let me know if you have questions, and please confirm the files have been received sufficiently.

Best regards Uwe Morgenstern
