The authors are grateful to the reviewer for identifying the areas that required attention and/or correction. The authors confirm that in the revised version of the manuscript, the reviewer's comments will be addressed as follow:

1)Figure 1 will be replaced by the one below to clearly show the rainfall stations in the three groups (A, B, C) as suggested.

» See Figure 1

2)The caption of Figure 2 will be edited to include 'station 7' as suggested. Also on Figure 2, the up and down arrows that were missing (though mentioned in line 3 on

page 12) in the discussion paper will be included as below.

» See Figure 2
