

Interactive comment on “Rainfall erosivity estimation based on rainfall data collected over a range of temporal resolutions” by S. Yin et al.

Anonymous Referee #3

Received and published: 22 July 2015

The authors have not replied or considered the reviewer's comments and suggestions. I fully agree with the another reviewer. The manuscript should be explored and compared with the recent scientific advancements in other parts of the world (Sadeghi et al., 2011 and Sadeghi and Tavangar, 2015).
