

Interactive comment on “Flood frequency analysis of historical flood data under stationary and non-stationary modelling” by M. J. Machado et al.

J. C. Balasch Solanes (Referee)

cbalasch@macs.udl.cat

Received and published: 6 March 2015

The authors have adequately answered and corrected the indications that I gave in the interactive comments. However, maybe the authors haven't seen the indications given in the last page, the last of which is important to improve the article:

Typing errors in the references

p. 551 line 1: the word “Systematic” does not belong in there

p. 552 line 24: accent in Francés

p. 553 line 16: unnecessary space in Garcia

C452

Typing errors in the tables

P 557 Table 1: Exceedance Annual Probability (%) of 0.01 instead of 0.1

Interactive comment on Hydrol. Earth Syst. Sci. Discuss., 12, 525, 2015.
