

Interactive comment on “Technical Note: The impact of spatial scale in bias correction of climate model output for hydrologic impact studies” by E. P. Maurer et al.

G. Pegram (Referee)

pegram@ukzn.ac.za

Received and published: 6 November 2015

A codicil

This document deserves a higher status than 'Technical note', mainly because of the depth and breadth of the work that went into making it. The offering should be published as a full paper - it is more substantial than most.
