We are a group of students at the University of Montpellier under the supervision of Valérie Borell-Estupina and Roger Moussa. We have prepared a review of this article as part of an exercise to improve our understanding of the peer review process. The attached PDF contains our review of this article with respect to the evaluation criteria of HESS. We hope that the comments can help to improve the manuscript and the quality of the online discussion. We leave it up to the editor, reviewers and the authors to filter out the most relevant comments. Thank you for allowing us to participate in the review of this article.
