

Interactive comment on “Evolution of hydrological sciences from dimensions of object, discipline and methodology” by L. L. Ren et al.

H. Li (Editor)

hongyi.li@pnnl.gov

Received and published: 19 March 2015

So far I have received the comments from two reviewers. The open discussion will be closed in two weeks (April 1st), but I'd like to encourage the authors to take this opportunity of open discussion and respond early to the reviewers' critical comments, if ever feasible. This way perhaps a couple of extra rounds of interactions between the authors and reviewers could be realized, which will help me better to make the editorial decision.
