

Interactive comment on “The yearly amount and characteristics of deep-buried phreatic evaporation in hyper-arid areas” by H. Li et al.

H. Li et al.

dhlhs69@163.com

Received and published: 23 January 2016

This experiment has been continuing done in whole 2015. In this time we revised Fig. 2c, we added the measurement values from August 25 to November 19, 2015, and accordingly, we revised all the related figures. See Manuscript-R1 (Supplement). This added figures made the results better, and it does not influence the conclusions.

Kind regards!

Hongshou Li
