

Interactive comment on “Hydrological, chemical and isotopic budgets of Lake Chad: a quantitative assessment of evaporation, transpiration and infiltration fluxes” by C. Bouchez et al.

C. Bouchez et al.

bouchez@cerege.fr

Received and published: 10 February 2016

Dear Editor, We have noticed errors on the isotopic compositions of regional atmospheric vapor measured by Tremoy et al. (2012) in the Figure 3 of our paper. The figure thus needs to be corrected as follow. We are very sorry for this inconvenience.

Camille Bouchez, on behalf of all co-authors.

Figure 3 : Isotopic composition of precipitations (black diamonds, data from GNIP, IAEA), and regional atmospheric vapor measured by Tremoy et al. (2012), triangles, and by Fontes et al. (1970a), black crosses. The grey lines represent the mean annual
