

***Interactive comment on “Can assimilation of  
crowdsourced streamflow observations in  
hydrological modelling improve flood prediction?”  
by M. Mazzoleni et al.***

**M. Mazzoleni et al.**

m.mazzoleni@unesco-ihe.org

Received and published: 12 March 2016

We would like to thank you for taking the time to go over our manuscript and for the constructive comments and relevant observations. Following the suggestions of both reviewers we improved English and style (as much as we could) and included all acronyms definitions. As suggested by the reviewer, we improved Figure 13 and 15. For detail, please refer to the supplement file in which the comments has been addressed

Please also note the supplement to this comment:

C6972
