Interactive
Comment

Interactive comment on “Analysis of the runoff response of an Alpine catchment at different scales” by B. Zillgens et al.

M. Mikos (Editor)

mmikos@fgg.uni-lj.si

Received and published: 1 February 2006

Additional remarks from the reviewer #2

Events 11 and 12 of Table 3 support the dependence on baseflow while 2, 3 and 4 show the opposite. How can a lower precipitation and a lower baseflow lead to a higher second peak? Please, comment on this issue.
