Comment

## ***Interactive comment on “Uncertainty analysis of hydrological ensemble forecasts in a distributed model utilising short-range rainfall prediction” by I. D. Cluckie et al.***

**I. D. Cluckie et al.**

Received and published: 30 January 2007

We appreciate the comments made by the referee and we completely agree with his points. A couple of paragraphs will be added in the paper in respect of the concerns about (1) the uncertainty due to hydrological models and (2) the need for developing reliable statistics to make operational adjustments.
