Interactive comment on “Technical Note: Water flow routing on irregular meshes” by D. Bänninger

D. Bänninger

Received and published: 6 February 2007

Referee 1 noticed that if I take a projection of the normal vector to the plane perpendicular, I get zero (p. 3679, l. 2-4). The sentence, as it is written, is wrong. It should be: “The projection in z-direction of the normal vector onto the (u,v,w)-plane is calculated.”
