

## ***Interactive comment on “Urban metabolism and river systems: an historical perspective – Paris and the Seine, 1790–1970” by S. Barles***

**A. Ducharne (Editor)**

Agnes.ducharne@ccr.jussieu.fr

Received and published: 24 August 2007

Two reviews of the manuscript have now been achieved and published as “Referee Comments” in HESSD. The referees are acknowledged for their work and valuable comments. They both agree in finding this paper highly valuable and suitable for publication in HESS. Based on these evaluations and my own reading of the manuscript, the latter is accepted for publication in the special issue “Man and river systems: Long-term interactions between societies and nature in regional scale watersheds” with minor changes.

The author is asked to write an “Author Comment” within 4 weeks to respond to the referee comments and attributed short comments if any, and to submit a revised version of the manuscript accordingly. In doing so, she shall address each point of the referee

comments and provide a list of the changes introduced to the manuscript.

In particular, to meet the recommendation of both reviewers, she should include a short description of the origin and validity of her sources and how they were used. As both reviewers expressed concerns about the language of the paper, the author shall consider having it edited by a native English speaker.
