Comment

Interactive comment on “A new data assimilation approach for improving hydrologic prediction using remotely-sensed soil moisture retrievals” by W. T. Crow and D. Ryu

N. Verhoest (Editor)

Niko.Verhoest@ugent.be

Received and published: 30 October 2008

I would like to thank both reviewers for their comments made on this paper. Based on these reviews, this paper may be accepted for publication if the main major comments on the necessity of using API model is addressed appropriately. I suggest that the authors address the comments of both reviewers before resubmitting the manuscript.
