Interactive comment on “A new data assimilation approach for improving hydrologic prediction using remotely-sensed soil moisture retrievals” by W. T. Crow and D. Ryu

W. T. Crow and D. Ryu

Received and published: 6 November 2008

Thank you for your time and efforts on this manuscript. We feel that consideration of both reviews has strengthened our manuscript. In particular, the manuscript has been modified to motivate the use of an API model in our procedure and address the feasibility of the alternative methodology suggested by the reviewers.
