

Interactive comment on “Analysis of virtual water flows associated with the trade of maize in the SADC region: importance of scale” by J. M. Dabrowski et al.

J. M. Dabrowski et al.

Received and published: 1 December 2008

A number of studies have indeed been published on virtual water and while we feel that the current literature list is relevant to the study topic, we do agree that additional references may be useful. This will be addressed in a revised version of the manuscript. The references provided by the reviewer will be assessed in terms of their applicability to the content of this specific paper.
