Thank you for the very positive review and constructive suggestions, we will revise the manuscript accordingly:

We will clean up in the use of phrases like “paradigm”.

C1177

We absolutely agree that much interesting research can be done on isolated aggregates and will rephrase the text accordingly.

We will elaborate on the “state-of-the-art” and include the highly relevant literature listed by the reviewer.

Interactive comment on Hydrol. Earth Syst. Sci. Discuss., 6, 2633, 2009.
