

## ***Interactive comment on* “Estimation of permafrost thawing rates in a sub-arctic catchment using recession flow analysis” by S. W. Lyon et al.**

**S. W. Lyon et al.**

Received and published: 16 March 2009

Thank you very much for handling our submitted manuscript ‘Estimation of permafrost thawing rates in a sub-arctic catchment using recession flow analysis’. We appreciate the effort spent at all levels of review of our manuscript and believe the comments and suggestions made have helped us a great deal in improving our manuscript.

Please see the previous four Author Comments for detailed responses to reviewer and editor comments. We hereby submit our revised manuscript to be considered for publication in *Hydrology and Earth System Sciences*.

Again, thanks to all who helped in the review of this work.
