

Interactive comment on “Spatial pattern analysis of landslide using landscape metrics and logistic regression: a case study in Central Taiwan” by Y.-P. Lin et al.

Anonymous Referee #3

Received and published: 29 July 2010

General comments. The paper is concerned with complex amount of knowledge that needs to be explained and discussed widely in the text. The overall quality of the paper is a bit scarce. Abstract is confused. Discussion is incomplete. The paper contains mistakes, and several unclear sentences. The text should be revised by an English speaking person. The paper needs some major revision.
