Thanks for your comment.

We had answered to the comments of all the reviewers dated on August 13, 2010, intending to submit the revised one. To address all the suggestions/comments by the reviewers, we carried out new simulations and then re-answered to the comments of all the reviewers dated on October 26, 2010. "The revised manuscript" along with "Author response to the comments of the reviewers" were posted on October 26, 2010. The revised manuscript is only the supplement to the detailed "Author response to the comments of the reviewers" to get into the details of the new simulations required as per comments/suggestions of the reviewers.
