

## ***Interactive comment on “A dynamic approach for evaluating coarse scale satellite soil moisture products” by A. Loew and F. Schlenz***

**W. Wagner (Editor)**

ww@ipf.tuwien.ac.at

Received and published: 2 December 2010

I would like to thank the three reviewers for their useful comments. Some additional analysis of the triple collocation method as suggested by Maria Piles would strengthen the paper, but overall a minor revision of the paper should suffice to address the scientific comment of the reviewers.

Kind regards, Wolfgang Wagner
