Received and published: 16 December 2010

- 1) AH has addressed the three issues of Schreier related to scaling, water laws and regulations from earlier times, and water use conflicts, and the additional suggestion by Eisdorfer regarding reasons underlying current failure.
- 2) In doing so, he has generated significant amount of new and interesting text.
- 3) I suggest moving around some of this text re: a revised outline (enclosed in the attached file along with more detailed comments.
