

Interactive comment on “Modelling the statistical dependence of rainfall event variables by a trivariate copula function” by M. Balistrocchi and B. Bacchi

A. Montanari (Editor)

alberto.montanari@unibo.it

Received and published: 28 April 2011

The replies of the authors to the comments of the referees highlight interesting ideas to address the remarks of the reviewers. I believe that a minor revision to the paper is needed. Therefore I am pleased to invite the authors to submit a revised manuscript for publication consideration in HESS.
