

***Interactive comment on “Infiltration-soil moisture
redistribution under natural conditions:
experimental evidence as a guideline for realizing
simulation models” by R. Morbidelli et al.***

T. Moramarco (Editor)

t.moramarco@irpi.cnr.it

Received and published: 23 August 2011

The paper makes a significant contribution to the topic and the positive comments of the two reviewers are the proof. I recommend that the authors, as best they can, address in the revised manuscript the questions that reviewers raised.
