

Interactive comment on “Deepwater Horizon oil spill impacts on Alabama beaches” by J. S. Hayworth et al.

M. Sivapalan (Editor)

sivapala@uiuc.edu

Received and published: 17 October 2011

The opinion paper has received reasonably challenging comments from the reviewers. The paper will be eventually publishable. However, I would like to see a rebuttal to each of the review comments, including how they intend to revise the paper in response. I look forward to seeing the revised manuscript to make further decisions and revisions, as the case may be.
