how the points raised by the referees have been accommodated. From the changes made in the revised manuscript and response provided below, I hope you are convinced that we have adequately addressed the reviewer's concern and made the paper stronger. Please also note that we have made some minor changes in the revised manuscript to improve its readability.

Supplement includes revised manuscript and response to the comments by Reviewer #1.

I am looking forward to your response.

Yours sincerely

Dr Lu Zhang

Senior Principal Research Scientist CSIRO Land and Water Christian Laboratory
Canberra, ACT Australia
