Received and published: 9 February 2012

We appreciate the constructive criticisms of the Editor as well as those given by the Reviewers aimed to improve the paper in a version ready for publication. Therefore, according with the judgment of the Reviewers, we intend to simplify the manuscript giving it a more concise structure even if trying to preserve the conceptual approach.

Finally, we thank the Editor and the Reviewers for recognizing the novelty of the re-

C6060

search as a first study on the effect of the NAO on the groundwater circulation of regional aquifers in Mediterranean areas.
