

Interactive comment on “Global flood hazard mapping using statistical peak flow estimates” by C. Herold and F. Mouton

G. Di Baldassarre (Editor)

g.dibaldassarre@unesco-ihe.org

Received and published: 14 April 2011

Given the criticism of the two referees, the nature of their comments, and the absence of any author reply, I do not recommend a resubmission of the manuscript to HESS.
