Dear Dr. Sutanto:

Thank you for submitting "Partitioning of evaporation into transpiration, soil evaporation and interception: a combination of hydrometric measurements and stable isotope analyses" to the HESS special issue. I have now received two reviews of your manuscript.

I concur with reviewers that this is an interesting and timely study. But both reviewers

suggested major changes of the manuscript (e.g., restructure of the presentation, more serious discussion). I hope you can do a thorough revision by addressing reviewers' points.

Please note that resubmitting your manuscript does not guarantee eventual acceptance, and that your resubmission may be subject to re-review by the reviewer(s) before a decision is rendered.

I look forward to receiving your revised manuscript. If you have any questions, please contact the journal office.

Yours sincerely, Lixin Wang
