

Interactive comment on “Coupling a groundwater model with a land surface model to improve water and energy cycle simulation” by W. Tian et al.

H. Cloke (Editor)

hannah.cloke@kcl.ac.uk

Received and published: 22 May 2012

Unfortunately the revised manuscript did not address some of the major concerns of the referee and editor. This could be addressed as a further substantial revision and resubmission of a fully revised manuscript is suggested.
