

Interactive comment on “Computer-supported games and role plays in teaching water management” by A. Y. Hoekstra

J. Seibert (Editor)

jan.seibert@geo.uzh.ch

Received and published: 31 May 2012

All three reviewers were positive about the manuscript, but also all recommended major revisions before publication (probably these are rather moderate revisions, but there is not such a category in HESS). All three reviewers provide constructive suggestions to improve the manuscript. An important point is the request to extend/strengthen the discussion part and to include feedback from students. I am looking forward receiving a revised version of this interesting manuscript.

Best regards, Jan Seibert
