Dear Dr. Caldwell,

Thanks for submitting your work to our HESS special issue. I received review reports from two experts. Overall, both of them are positive and offer constructive comments. Based on these and my own reading, I will be pleased to accept this manuscript for publication if you could consider the review comments and revise your manuscript accordingly. I think reviewer#1's suggestion about adding ecological perspectives is important and relevant to the topic of this special issue.

C2775

Thank you again and I look forward to receive your revision.

Yours sincerely, Lixin Wang
