

Interactive comment on “Thermal management of an urban groundwater body” by J. Epting and P. Huggenberger

J. Epting and P. Huggenberger

jannis.epting@unibas.ch

Received and published: 6 August 2012

Answer to the interactive comment of J. Constantz:

We propose to extend the discussion on sw/gw interaction and to add references that more explicitly deal with heat exchange processes related to surface waters in the final version of the manuscript (see supplement).

Please also note the supplement to this comment:
