Received and published: 27 December 2012

Dear authors,

two reviewers have commented on your manuscript. The review process took a bit longer than expected as I had to assign an additional referee.

Please take carefully into account the comments by the two referees for a revised version of the manuscript. The revised version and your responses should fully response to the issues raised be the reviewers. Both reviewers are asking for more clarification on the merit of method compared to other already existing approaches. This needs to

be more elaborated in a revised version of the manuscript.

Kind regards, A. Loew
