

***Interactive comment on “Ensemble Kalman filter  
versus ensemble smoother for assessing  
hydraulic conductivity via tracer test data  
assimilation” by E. Crestani et al.***

**Anonymous Referee #2**

Received and published: 7 January 2013

I am looking forward to read the revised version appearing in HESS. From what the authors say they will change in the revised version, it will be a very strong and useful paper!

Best regards
