

Dear Meine,

Many thanks for your email.

Please create one Latex file for each part und put them in a .zip file. You should be able to upload the .zip file in the "text" box, where only doc/docx/tex are allowed (normally).

In case this does not work, please upload part 1 in the text box. Part 2 needs to be added to the figure .zip file. This is not the correct way, but it will work.

I will make an internal remark for my colleagues from the production office, that this paper is a split paper.

In case you have any further question, contact me again.

Kind regards,

Anna

Dear Natascha

We're pleased with the acceptance of our manuscript – as it actually has become two in the process, we seek your advice. We are transferring all the content to Latex – but in doing so it becomes two separate files. How should we upload this for further processing?

Best regards

Meine van Noordwijk
